

## Wouldham All Saints Church of England Primary School

Newsletter – w/e 26th May 2023

End of Term 5. Hoping everyone has a safe and happy week off school. We look forward to welcoming everybody back on Monday 5th June.

Usually Term 6 is very hot. Please remember to supply either a school cap or legionnaire hat (available from Eduspot), water bottles and apply sun cream before school. Thank you

Mr Fitter and Mrs Goddon, Headteachers

### Attendance this week

Whole school attendance this week 92.3 %

Best attendance this week:

Dove Class 96.8% and

Nightingale Class 96.2%

### Online safety

#### Communication

Talk to your child about why it is important to stay safe online. Explain that whilst the internet is a fun, exciting and knowledge-rich tool, it is also a place where people may wish to bring them into dangerous activities or expose them to unpleasant material. It is important to be clear that you are not saying your child may never use the internet again, or that everything on it is harmful – it is about teaching them to have a greater awareness and to be able to manage and report any risks. Keep an open dialogue with your child – letting them know they can always talk to you about anything that has made them feel uncomfortable online is key to keeping them safe.

At the end of the newsletter is a child friendly poster produced by National Online Safety which helps to give advice to children about online safety and advice to parents/carers on how to talk to children about online safety.

### PTA—Friends of Wouldham Event

The Friends are organising a quiz night to take place in the school hall —

Date: Saturday 10th June.

Time: 7.00 pm arrival.

Adults only teams of max 6 per table.

Cost will be £2 per person.

Bring your own refreshments.

There will be some available to buy on the night.

## Wellbeing - Connecting with Nature

Evidence shows that spending time in green space or bringing nature into your everyday life can benefit both mental and physical wellbeing. Being outdoors can have lots of positive effects such as improved mood, reduce feelings of stress or anger, help you to be more active, improve confidence and take time out to feel more relaxed.

### 8 OUTDOOR activities to boost wellbeing

1. Do some gardening

2. Discover new walks

3. Nature spotting

8. Get crafty

7. Practice mindfulness

6. Have a picnic

5. Take your workout outside

4. Forage for fruit and flowers

## School opening and closing times

Reminder that school gates open at 8.50 am until 9.00 am. Anyone arriving after this time must come via the school office and sign pupils in—this is to ensure we have an accurate record of which children are in school and if they are packed lunch or school dinners.

Also reminding that school finishes at 3.15 pm. Any child whose parent/carer is late will be put into the after school provision and will be charged for this. Unfortunately we are unable to hold children at reception after 3.30 pm.

Thank you for your co-operation on this matter

## DATES FOR TERM 5

Half term	Monday 29th May to Friday 2nd June
Term 6	Monday 5th June
PTA meeting	Monday 5th June @ 9am
Wagtail class trip	Friday 9th June
PTA quiz	Saturday 10th June
Fathers Day room	Wednesday 14th and Thursday 15th June
SEN parents group	Wednesday 14th June
Cricket tournament	Thursday 15th June
Kingfisher class trip	Friday 16th June
PTA meeting	Monday 19th June @ 9am
New Year R books and biscuits	Wednesday 21st June
Welcome sessions Year R	Monday 26th June
SEN parents group	Wednesday 28th June
KS1 sports day	Wednesday 28th June—pm
KS2 sports day	Wednesday 5th June— am
Stay and play new Year R	Wednesday 5th July
Summer Fayre	Friday 7th July from 2pm

# What Parents & Carers Need to Know about

# FORTNITE

## CHAPTER 3

AGE RATING  
PEGI  
12

First released in 2017, Fortnite has become one of the most popular games in the world. It currently has around 350 million registered players. Developed by Epic Games, it began life exclusively as a 'battle royale' contest, where up to 100 online player characters would fight - with weaponry including rifles, handguns and rocket launchers - to be the last one standing. Today, it features multiple modes which each offer something different (although some modes, such as 'Save the World', are only available on certain platforms).

### IN-APP PURCHASES

Not all of Fortnite is free. Save the World mode, for example, can become quite costly. An in-game currency called V-Bucks is used to buy items such as cosmetics, which are not a necessity to play the game. It can feel like buying them is essential, however - even for adult players. Making sure no payment methods are linked to the game's store is a good idea when children are playing Fortnite.

### REPEAT SUBSCRIPTIONS

Fortnite now offers a monthly repeat subscription which costs £9.99 (or equivalent). This package offers different non-essential benefits every month - including fancy cosmetics, rare weapons, V-Bucks and special bonuses. Signing up, therefore, can be tempting for dedicated players. However, subscriptions cannot be paid for with V-Bucks earned in the game, only with real-world money.

### COMPETITIVE COMMUNITY

Fortnite isn't purely a competitive experience (some modes prioritise cooperation), but the rivalry aspect remains central. Battle Royale is an especially ruthless mode, where the last player or squad left standing wins. Games can become heated, and players' desire to win can often cause excessively aggressive or "toxic" behaviour towards others - via the game's audio chat, for instance.

### POSSIBILITY OF SCAMS

Popular games like Fortnite are often targeted by unscrupulous individuals trying to trick or exploit genuine fans. In Fortnite, scammers have been known to offer children free V-Bucks or vast amounts of V-Bucks in exchange for rare items - often asking the player to click a particular link. These scammers are seeking access to your child's account, personal information and payment details.

### USER-CONTROLLED CONTENT

Some elements of online video games can't be rated for age appropriateness because the developer doesn't have control over them. In Fortnite, for instance, things like voice or text chat, usernames, trades and other player-generated content may not always be suitable for children. It also means that the makers aren't liable for anything a stranger might say to young Fortnite players online.

## Advice for Parents & Carers

### STAY AWARE OF SPENDING

Free-to-play games (that is, ones without up-front costs) can still be big financial drains. In Fortnite, for example, the Battle Pass - a set of rewards to improve players' experience in the game - can be either earned through playing or bought with real money (with additional incentives for the latter). With supervision, however, this can be a great lesson in money management for young people.

### TALK ABOUT TALKING

Communication is key in the squad-based Fortnite modes, and children will quickly realise that talking with team-mates online helps to increase their win rate. It's a good idea, therefore, to chat with your child first about speaking to strangers online, trading, scammers and other potential risks. Remind them that they can always come to you for help if they run into problems online.

### ENCOURAGE BREAKS

Gaming sessions can reach marathon lengths, especially when your child is on a winning streak and doesn't want to stop. Sitting in the same position for hours isn't healthy, of course, but it's an easy habit to form. Encouraging young ones to break regularly for drinks and so on will help them stay hydrated, rest their eyes and release some of the tension from competitive gameplay.

### DISCUSS OTHER APPS

Games like Fortnite can lead on to third-party apps (Discord, for example) where players can join a voice, text or - in some cases - video chat about the game. Certain add-ons also let children talk with other players from their local area, which clearly presents a potential risk. When discussing Fortnite with your child, you might also want to ask them about other apps they use while playing.

**Fortnite: Chapter 2 has finally landed!** With a whole host of new in-game features including a brand-new map, more water-based activities, upgraded character skins and a more streamlined arsenal of weapons, this Fortnite is promising to be the best yet. Almost all of the changes are cosmetic which means the concept of the game remains the same, with players still aiming to be the last man standing. Players will no doubt find the game much more enjoyable with so much more to explore. For parents and carers however, it pays to remain vigilant.

## What parents need to know about

# FORTNITE

### BATTLE ROYALE

Battle Royale games have become very popular over the last couple of years, and most tend to follow a very similar setup. Taking Fortnite as an example, 100 players drop into a map, loot buildings for weapons and armour and attempt to beat all the other players to be crowned victor at the end. If you've ever seen the Hunger Games movies, you'll have an idea of what this entails. Each game can take up to 20 minutes (assuming you last to the end) and can be restarted relatively quickly once 100 free players have been found.

### IS FORTNITE ADDICTIVE?

Fortnite is at the forefront of gaming addiction discussions because it is so popular with young people. But whether it actually contributes to gaming addiction is up for debate. WHO (World Health Organisation) have classified gaming as a legitimate addiction, but this is not solely a concern with Fortnite. Signs of addiction can include irritability when not playing, lying about the amount of time played and a preoccupation with thoughts of the next gaming session. Realistically, it must be down to parents and carers to recognise these symptoms and act accordingly if they think they are developing.

### FREE TO PLAY... OR IS IT?

While Fortnite is technically free to play (in that you can download and play it without paying) it does come with the caveat that spending money on things like skins and emotes in-game is heavily pushed to players. The currency used in-game is called 'V-Bucks' and can be bought with real money through the game's online store. It's worth remembering that these purchases are absolutely not necessary, are cosmetic only and that V-Bucks can be earned in-game with enough play time.

### SEASONAL UPDATES

Every 10 weeks or so Fortnite is updated with a new season. This essentially adds new things like skins and emotes to the game, while also sometimes changing up the game map in interesting ways. These seasons are free to everybody and don't require additional money to play, though battle passes for each season can be bought with V-Bucks. A battle pass will typically allow a player to earn experience faster and gain fun in-game items by completing a host of daily challenges.

### CROSSPLAY IS AVAILABLE

One of the wonderful things about Fortnite is that it can be played cross-platform. This means that no matter what platform a person plays on (PC, PlayStation 4, Xbox One etc) they can play with friends who own the game on a different platform. To do this, an Epic Games account must first be created online (which is free) and then linked with your platform account. Doing this removes the age-old boundary of not being able to play together because you don't have the same console and opens up a whole new world of playing online with friends.

### IS FORTNITE VIOLENT?

Fortnite has been rated by the ESRB (Entertainment Software Ratings Board) as teen, as it contains cartoony violence and the weapons and acts depicted in the game are some way removed from their real life inspirations. Characters don't draw blood when shot and instead of dying, they are simply beamed up off the map. Naturally, players younger than the recommended age limit will want to play the game and that should be at the discretion of parents and carers.

## Top Tips For Parents

### BUYING V-BUCKS

As mentioned, Fortnite does contain in-game purchases and microtransactions in the form of V-Bucks which can be bought with real money. If you do decide to let your young one spend money in the game, be sure to delete your card information afterwards as it can be very easy to purchase more items at the press of a few buttons. It's important to set a limit on any purchases (as mentioned they are absolutely not necessary to play the game) and a suggestion would be capping the spending at around £50 - this is the normal retail price of a game

### GAMING WITH STRANGERS

Fortnite Battle Royale is an online game, and as such, there is a chance that young children could come into contact with strangers who are randomly placed into their groups in a game. It's difficult to predict what another person might say or do in a game, so it's a good idea for friends playing together, to be grouped together. The only real countermeasure to interacting with strangers offered by Fortnite is to turn off all mic communications, which can be done in the game's settings. Using outside chat apps, like Skype or Discord while playing, is a great way to make sure you know who you're talking to and that nobody else is listening in.

### LIMIT TIME, BUT BE FLEXIBLE

A game of Fortnite can last up to 20 minutes, so be flexible when it's time to put it away. The approach of 'one more game' as opposed to '10 more minutes' will stop any complaints that a match is still ongoing. Better still, play with your child and take it in turns that way you're helping control the time played and can keep an eye on what they're experiencing.

### TALK TO OTHER PARENTS / CARERS

If you're concerned about play time or spending money in the game, talk to other parents and carers of your child's friends. If you approach as a collective, it will be easier to know when their friends are online and you don't have to worry about who they're playing with. It can also help curb expectations on spending money on battle passes and skins if you stick together.

### CAN DEVELOP SOME IMPORTANT SKILLS

It's often overlooked just how good gaming can be for young people. Fortnite encourages team play, quick and complex problem solving and communication; that's not to mention the lightning fast reflexes gamers can develop. While taking breaks to do other activities is of course important, there are benefits to screen time which might not be immediately obvious.

### PLAY THE GAME YOURSELF

There's no substitute for sitting down and playing the game yourself to learn all about it. Fortnite is available for free on almost anything you can imagine, even your smartphone, so there's never been a better time to get involved and see what all the fuss is about. You never know, you might even be able to impress your children when you show them your impressive Victory Royale tally!

### Meet our expert

There's a very good chance you've heard of Fortnite, but what exactly is it? And why is it so popular amongst young people? Fortnite is an online multiplayer "battle royale" game developed by Epic Games, and is playable on Playstation 4, Xbox One, Nintendo Switch, PC and mobiles. It gained popularity in late 2017 and has since become the biggest game in the world, thanks to its rapid and engaging gameplay. As with most games, Fortnite itself is a highly enjoyable and safe experience, but it pays to be vigilant, as the safety is not water tight.

# What Parents & Carers Need to Know about

# FORTNITE

CHAPTER

4

AGE RESTRICTION  
PEGI  
12

## WHAT ARE THE RISKS?

Fortnite may be something of a veteran in gaming terms (having launched back in 2017), but it remains massively popular – with more than 250 million people playing online every month. That's partially due to the competitive nature of its player-vs-player combat, its pop culture crossovers and its constantly shifting map. Significant updates are rolled out with each new version of the game – known as 'chapters' – and within these sit shorter 'seasons', which bring more subtle changes. The latest iteration, Chapter 4 Season 2, adds a cyberpunk-themed city and anime-style areas, for example, along with new weapons and characters.

## ALWAYS ONLINE

There's no single-player offline mode in Fortnite: it can only be played online. Internet access can sometimes be an issue when you're out and about (both in terms of connectivity and using up data), so you may find that dedicated young Fortnite players are often less enthusiastic about trips away of a certain length – such as days out and holidays – than you might have expected.

## IN-GAME COSTS

Fortnite is free to download and play, but it *does* offer various additional purchases – cosmetic skins, rare weapons and so on – which don't really impact on gameplay, but can cost quite a significant amount. These items are bought with game's currency, V-Bucks – which can be earned through playing, but are also often purchased from the game's store for real-world money.

## POP CULTURE REFERENCES

Part of Fortnite's appeal is its ongoing crossovers with other popular franchises, ranging from movies and TV shows like *The Walking Dead* to comic book characters including Batman to other games such as *Street Fighter*. This means you could find your child asking questions about the creature from *Alien* or who Geralt from *The Witcher* is a little sooner than you'd possibly anticipated.

## CROSSPLAY AND PARTY CHAT

Fortnite is popular with vast numbers of gamers ... of various ages. Crossplay lets friends play with and against each other, regardless of whether they're on an Xbox, PlayStation or PC – while party chat allows them to communicate during the game. This chat feature can also, therefore, put youngsters at risk of hearing inappropriate language from older players in the heat of virtual combat.

## VIRTUAL VIOLENCE

At its core, there's no avoiding that Fortnite is about shooting other players to eliminate them. That said, there's no blood or gore: the violence is generally rendered in a cartoonish style, and there are frequent comical touches to lighten the mood (fishing mini-games, for example). The machine guns, shotguns and other weapons often look and behave realistically, however, so discretion is advised.

## FREQUENT UPDATES

The game's developers release content in 'seasons' that usually run for around ten weeks. Each fresh update sees items added to the in-game store, changes to the environment's map and a different over-arching theme (such as 'medieval', 'pirates' or 'party'). These regular renewals help to hold players' interest – but also give young gamers plenty of reasons to keep returning to their screens.

## Advice for Parents & Carers

### MATCH GAMING TIMES

Younger players tend to want to play Fortnite alongside their friends. With this in mind, it could be worth speaking to the parents and carers of your child's social group and trying to coordinate their gaming around certain hours of the day. Safety in numbers is obviously a factor here, but it will also help your child feel that they're getting adequate opportunity to socialise with their friends online.

### SET SPENDING LIMITS

Fortnite's rotating store is a not-so-subtle mechanism for coaxing players into splashing out on those sought-after items before they disappear again for weeks. This could potentially lead to surprise outlays on your card if your child is tempted into an impulse purchase. You could consider setting up a prepaid card for them to use – or ensuring that any online purchases require adult authorisation.

### USE UPDATES AS REWARDS

Fortnite's seasonal updates are free – but each also brings the option of a 'battle pass', unlocking exclusive rewards for playing the game and completing set challenges. The passes cost around £8 (and are available as part of larger bundles) and can be an effective reward to young Fortnite fans for good behaviour or academic performance, or as an incentive for chores like tidying their room.

### BE WARY OF SCAMS

The immense popularity of Fortnite with more trusting younger audiences means that there's no shortage of scammers looking to fraudulently obtain passwords and other personal data through techniques like phishing. As the developers point out on many of Fortnite's loading screens, they never ask for a player's account password outside of the game: make sure your child knows this.

### ENJOY FORTNITE TOGETHER

Fortnite also offers split-screen gameplay, meaning that two people can play simultaneously via the same TV or computer. That's ideal for siblings or when your child's friends visit – but it also offers you an opportunity to spend time doing something fun with your child, while also being able to make sure they're playing the game safely. Who knows, you might even teach them a thing or two!

## Meet Our Expert
