

Garden Explorers

@

Snodland Children's Centre

**Tuesdays
1:30PM-2:30PM**

Outdoor play supports development in children physical and mental well-being. It is directly related to physical strength and healthy lifestyle choices. Kids who are more active in childhood are more likely to be healthy adults. Outdoor play encourages children to try new activities, problem solve, explore the natural environment and develop resilience. Garden explorers consists of outdoor play only, where your child can explore mud houses, run outside, ride on the bikes, play in the wendy house and more to help support your child's development.

No booking required.
